

Modernizing **workplace** collaboration

VARSTREET SOFTWARE PVT. LTD.

Sujata Computers helped VARSTREET SOFTWARE PVT. LTD. move approximately 80 users from Google Workspace to Microsoft 365, then strengthen Microsoft 365 data protection with Veeam Backup for Microsoft 365.

Migration + Backup

Case Study

Customer background

Who is VARSTREET SOFTWARE PVT. LTD.?

VARSTREET SOFTWARE PVT. LTD. is a software and technology solutions customer. The engagement began from a no-active-business relationship with Sujata Computers Pvt. Ltd.

Engagement scope

Google Workspace to Microsoft 365 migration for approximately 80 users. Veeam Backup for Microsoft 365 for cloud data protection.

The challenge

Need for a modern productivity and protection platform

VARSTREET SOFTWARE PVT. LTD. was using Google Workspace and required a productivity and collaboration platform that could support better communication, enterprise readiness, and future scalability. Along with migration, the customer also needed a reliable data protection strategy for Microsoft 365 to safeguard business-critical email and collaboration data

2

Sujata Computers used a consultative approach to move VARSTREET from a new prospect into a strategic customer engagement.

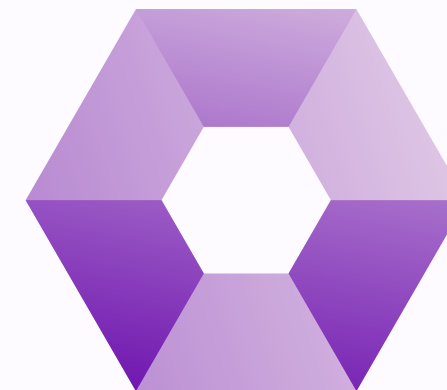

The solution

Migrating to Microsoft 365

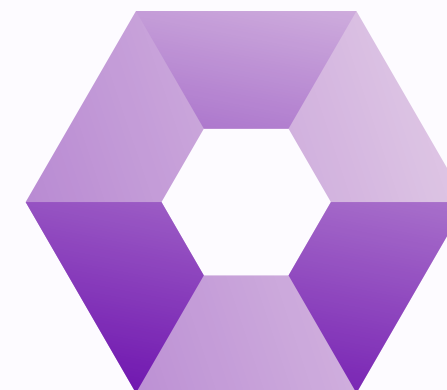

Sujata Computers positioned Microsoft 365 as a modern productivity and collaboration platform for approximately 80 users.

The migration plan focused on minimal disruption and user continuity while supporting onboarding across Outlook, Teams, OneDrive, and SharePoint.

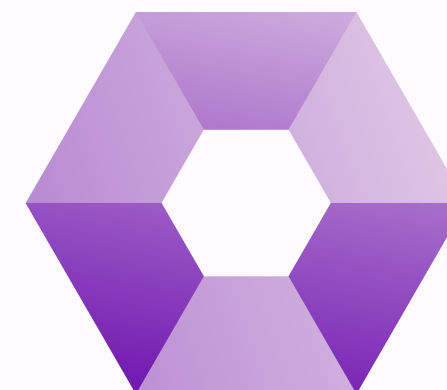

Microsoft 365 Migration

Migrated approx. 80 users from Google Workspace to Microsoft 365.

Migration Services

Planning, configuration, migration execution, and post-migration support.

Veeam Backup for Microsoft 365

Recommended and supplied backup solution for Microsoft 365 data protection.

The solution

Data protection after migration

After the migration requirement was finalized, Sujata Computers recommended Veeam Backup for Microsoft 365 as an additional layer of cloud data protection.

Business value delivered

- ✓ Improved recovery readiness.
- ✓ Protection against accidental deletion or data loss.
- ✓ Secured Microsoft 365 email and collaboration data.

2

**The engagement created a
stronger foundation for
collaboration and future IT
growth.**

The Result

Business outcomes

The migration gave users access to Microsoft 365 productivity tools such as Outlook, Teams, OneDrive, and SharePoint. Veeam Backup for Microsoft 365 strengthened data backup and recovery readiness.

80 Users

migrated from Google
Workspace to Microsoft 365

M365

adopted for email,
collaboration, and cloud
productivity

Backup

protection added for
Microsoft 365 data

Why **Sujata**, **Microsoft 365**, and **Veeam**?

Sujata Computers combined consultative planning, migration execution, post-migration support, and a backup recommendation to help VARSTREET modernize workplace collaboration and improve recovery readiness.

Microsoft 365 Migration

Veeam Backup

Microsoft 365 Licensing

Post-migration Support

How can businesses modernize workplace collaboration?

By moving approximately 80 users to Microsoft 365 and adding Veeam Backup for Microsoft 365, VARSTREET improved productivity, cloud readiness, and data protection.
